Are you missing out
on qualified applicants?

If your TOEFL iBT® and IELTS® score requirements aren't aligned, you could be turning away well-qualified applicants or missing them entirely because they don't apply.

That's why we've created research-based score comparison tools that make it easy to align your scores.

Visit **www.ets.org/toefl/comparescores** to:

- View **comparison tables** for overall scores and section scores
- Read the **research reports** on which these tools are based
- Review **guidelines** for setting score requirements

Reliable research behind the score comparisons

The comparison tables were developed after thorough analysis of 1,153 score reports for students who took both the TOEFL iBT test and the IELTS Academic test.

TOEFL iBT Score	IELTS Band
118	9
115	8.5
110	8
102	7.5
94	7
79	6.5
60	6
46	5.5
35	5
32	4.5
0–31	0–4

Shading indicates score comparisons with the highest degree of confidence.

ETS does not recommend using the tables as the only resource to set cut scores. The TOEFL program provides the **Guidelines for Setting Useful Score Requirements for the TOEFL iBT Test** to help institutions set useful and relevant score requirements.
